FEAST FOR THE SENSES

A selection of kitchens to satisfy the appetites of design lovers.

FLOURISH

Where we live tells a story about who we are and where we've come from. For YSG's founder and principal, Yasmine Ghoniem, the decoration of her own Bondi apartment speaks of her upbringing in Australia, Kuwait and Saudi Arabia. The richness of these memories manifests in the kitchen through custom green joinery, creamy marble benchtops and a hand-painted patterned floor. The eye is rewarded for a journey upwards with an eclectic collection of sculptural pieces bringing flair to what is, at its core, a functional space – although with so much to see here, you'd be forgiven for not noticing.
