GLOWING PRAISE

SUNLIGHT TAKES CENTRE STAGE in this hammam-inspired ensuite by YSG Studio. Amplified by the checkered full-length coloured-glass window, natural light bathes the space in the mornings, highlighting every sumptuous inch of the pattern and colour combinations, which YSG Studio have perfected. The owners were integral to the story that the design seeks to tell. As YSG Studio director Yasmine Ghoniem explains, “She is half-Egyptian, half-Australian like me, and longed to incorporate the colours of the Middle East in her home, plus plenty of pattern and tactility. He is Danish with an appreciation for pale timber, clean finishes and minimal ornamentation, so we merged their aesthetic inclinations.” From the honey-ginger tones of the limewashed walls to the pastel-blue tiles above the sink and bronze details, every colour choice is magical. “The coloured glass leadlight window incorporates pinks and lilacs in reference to the sweet-scented flowering wisteria in the rear courtyard,” says Yasmine. “We selected a Tuscan Bronze finish for the shower and vanity tapware plus heated towel rods given it had patinaed appeal rather than a cold chrome sparkle. They all possess a weight about them that adds a precious but not fussy appeal to the space.” *What luxury items did you choose for this bathroom regardless of budget?* The feature window is the hero. The walk-in shower enables you to float in and out and appreciate its beauty from every angle of the room, plus there’s plenty of elbow room once inside to fully immerse yourself in the glow of the glass. *ysg.studio*
