01 Venti 20 tapware collection from Gessi
 The elegance and innovation of the 1920s is given a contemporary touch in this tapware collection by Lázaro Rosa-Violán. The range mixes classic Art Deco curves with a clean, updated finish. Each tap or accessory is crafted to feel balanced and beautiful in the hand, turning everyday rituals into something special.

02 Moiré Rose mosaics from Bisazza
 Bisazza's Moiré Rose mosaic introduces a layered tonal pattern in pink and rose-tinted glass tesserae. Featured in Greg Natale's Five Dock House project, the intricate pattern is brought to life through natural light interplay, offering a textural and chromatic experience. Photograph: Anson Smart.

05 Sessanta washbasin from Agape
 Sessanta – Italian for “sixty” – is a luxurious solid marble washbasin with a 60-centimetre diameter, designed by Benedini Associati for Agape. Generous in proportion, the elegant piece comes in a range of natural stones, from classic white Carrara to deep green Alpi and the rich brown of Emperador dark (pictured).

07 Pitt Cooking from Winning Appliances
Pitt Cooking integrates brass gas burners directly into benchtop surfaces, eliminating the need for a traditional cooktop frame. The configuration allows for independent placement of burners, supporting custom layouts. The burners are handcrafted in The Netherlands and offered through Winning Appliances.

09 Staron from Austaron Surfaces
The seamless finish of Staron Solid Surfaces brings a unified look to this kitchen by Newgrove Benchtops. Made from minerals and resin, the material allows for integrated splashbacks and sinks with no visible joins. With plenty of tones and textures to choose from, it's a versatile solution for hardworking surfaces.

10 Professional M Series Oven from Wolf
Featuring Wolf's signature red control knobs, the Professional M Series Oven pairs striking stainless steel looks with chef-quality functionality. A smart convection system called Dual VertiFlow means the oven preheats efficiently and cooks consistently. Additional modes such as "proof" and "dehydrate" elevate results.
